ERIC WOODWARD

for council

Dear Township of Langley Residents,

I am running for Langley Township Council. I want my campaign to be about real ideas to move forward on solving real problems. Please join me for our scheduled presentations and Q&As next week, throughout Langley.

We need to fix the big issues we face as a community that seem to go on and on and on, such as 208th Street. We have ever increasing congestion through Willoughby. We need to work harder on affordability issues, a lack of private investment in Aldergrove, and address real concerns about the future of the Brookwood/Fernridge areas.

I will outline my platform to help improve Langley, to address real issues we need to solve, from Aldergrove to Brookwood. I want to present new ideas that hopefully everyone can get behind, consider, and improve upon. People deserve to be listened to, and their concerns considered. I want to do that.

Please join me. I hope to see you there.

LET'S FIX IT.

Sincerely,
Eric Woodward

“We need to fix
the big issues”
